

true cooling specialists

BIOMEDICAL REFRIGERATOR | A stable running unit that offers a great level of flexibility. Flexaline offers air forced cooling for high temperature stability and quick temperature recovery after door openings.

EXTRA SECURITY

The Flexaline has multiple safety features as standard. The range comes with a built-in lock to restrict access to the stored samples.

Besides the physical security features, the line comes with electronic safety features. The temperature display has a high/low temperature audio and visual alarms along with a door open alarm.

The controller records the minimum and maximum temperature since the last reset, nd this ensures that your samples have never gone out of the set temperature range.

▶ FLEXIBLE STORAGE

The Flexaline offers a great level of flexibility and covering a large spectrum of different storage needs.

The shelves in the Flexaline are specially designed for easy adjustments in order to offer the best flexibility for your storage needs. This allows the user to organize their unit exactly as desired.

PRODUCT BENEFITS

- Easily adjustable shelves to accommodate any storage need you might have
- Air-forced cooling for hightemperature stability and quick temperature recovery after door openings
- Key lock on all models for optimal security of your samples
- Interior LED light offers a good overview of your samples
- Anti-freeze thermostat

VARIOUS SAFETY FEATURES

ADJUSTABLE SHELVES

The Carel controller features, among others, visual and acustic alarm, high/low temperature alarm and open door alarm.

The shelves in the Flexaline are easy adjustable in order to offer best flexibility for your storage needs.

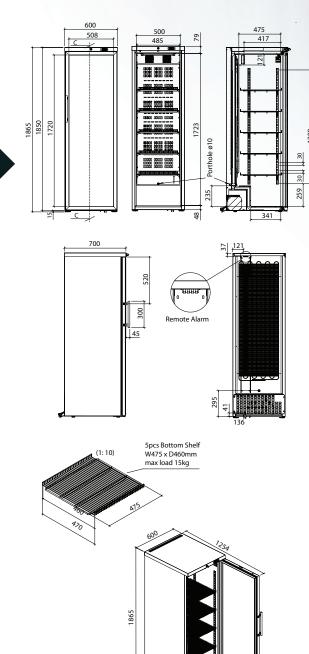

All models in our Flexaline range feature LED lighting offering long time durability and lowest possible operating cost and the security lock is a standard feature in our Flexaline for optimal security.

The ARCTIKO LRE 440 model supports following optional features:

- SVS voltage stabilizer
- GSM alram module
- Shelves
- Basket
